PROFESSIONAL SUMMARY

Frontend Developer and Web Designer with 3+ years of hands-on experience building high-performance, SEO-optimized websites using WordPress, Shopify, HubSpot, and modern web technologies. Proven track record of customizing themes, improving Core Web Vitals, and driving measurable organic traffic growth. Currently pursuing an M.Sc. in Artificial Intelligence in Germany — combining technical depth with a strong eye for UX and performance.

PROFESSIONAL EXPERIENCE

Frontend Developer & Web Specialist

Dec 2023 – Sep 2024

Kaayani GmbH · Berlin, Germany

- Built and maintained 8+ client websites on Shopify and HubSpot, achieving 99.9% uptime SLA.
- Developed custom Shopify themes using Liquid, HTML5, CSS3, and JavaScript — reducing page load times by ~30%.
- Executed technical SEO audits (site structure, schema markup, Core Web Vitals) that improved average keyword rankings by 15+ positions.
- Integrated Google Analytics and Search Console dashboards to track performance KPIs and report to clients.
- Collaborated with design and marketing teams in an agile workflow to deliver projects on time and within scope.

IT Executive (Web & Digital)

Oct 2021 – Sep 2022

Sindh Economic Zones Management Company · Karachi, Pakistan

- Owned end-to-end WordPress development — built, themed, and maintained the company's public-facing website.
- Diagnosed and resolved 50+ website bugs and performance bottlenecks, improving mobile responsiveness scores.
- Developed custom WordPress plugins and theme modifications aligned with organizational brand guidelines.
- Supported digital marketing initiatives including social media management and email campaigns.

Web Development Intern

Jul 2021 – Oct 2021

Hrera · Karachi, Pakistan

- Designed and developed WordPress websites using Divi and Elementor page builders.
- Implemented responsive layouts and cross-browser compatible front-end customizations.
- Created digital marketing assets and managed content updates.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design, Liquid (Shopify)

CMS & Platforms: WordPress, Shopify, HubSpot — theme dev, plugin customization, API integrations

SEO: Technical SEO, On-Page SEO, Core Web Vitals, SEMrush, Google Search Console, Schema Markup

Mobile: React Native — cross-platform app development

Database: MySQL, SQL, Relational Database Design

Tools: Git, Google Analytics, VS Code, Microsoft Office

Languages: English (Advanced), German (B1 – actively improving), Urdu (Native)

KEY PROJECTS

Mobile Point of Sale App (React Native)

- Built a cross-platform iOS/Android POS app with QR/barcode scanning for instant product lookup.
- Designed billing logic for automatic total calculation and digital invoice generation.
- Delivered a retail-optimized UI with fast transaction flows for store staff.

Online Movie Ticket Booking System

- Developed a full-stack responsive booking platform with seat selection and payment gateway integration.

- Focused on intuitive UX and smooth checkout flow — minimizing user drop-off.

Sports Management System (Web App)

- Built a role-based access control system using Firebase Authentication and MySQL.
- Designed normalized relational database schema to support multiple user roles.

EDUCATION

M.Sc. in Artificial Intelligence

2022 – present

Brandenburg University of Technology, Germany

B.S. in Software Engineering

Graduated 2021

Mehran University of Engineering & Technology, Pakistan
